### What Media & Radio Are Saying About Jeremy Phifer >>>

... "He has a slight vocal rasp. That, plus the highly rhythmic track, gives the single an audio 'edge.' The country-rock outing has a dandy electric guitar solo, as well."

The Texas music scene has always had a mentality to call its own. They have their own charts, their own artists, and if no one outside of Texas ever pays much attention to them they are just fine with that because in the state of Texas they are all superstars ~ With his debut single "Take The L Out of Lover," newcomer Jeremy Phifer sets out on the path to becoming the next sought after Texas based artist. The tempo driven song laced with shredding guitar sings of the final stages of a relationship gone wrong as he uses broken hearted lyrics like "wasted memories and sleepless nights" to hammer home the point that got them to where they are. He uses these types of descriptions throughout the verses to lead into the chorus where we get the incredible hook of "Take The L Out of Lover and It's Over." The lyrics are crafted in such a way that you nearly leap out of your seat to give the songwriting craft used here a standing ovation. Phifer creates the atmosphere of the song perfectly and hits any listener that has gone through a break-up right in the heart. His raw, southern rock tinged vocals are enticing and wrap around the lyrics perfectly adding an element of depth to the believability of the song. If this is just the start for Phifer then I personally cannot wait to see what comes.

...“Country is alive and well thanks to Jeremy Phifer. He’s got that southern rock and country swagger that sounds great on 100.9 The Farm. Love this dude!. ‘Jeremy is the real deal—singer, songwriter and heckuva picker!’ He’s a Texan with a pen full of songs and a bright future in country music!”

*Kelly Green, PD, WEIO HuntingtonTN*

... “Jeremy Phifer is the latest Nashville songwriter to turn his pen on himself hoping to write his own ticket to stardom. We hope it works and think it will.

His debut single, ‘*Take The L Out of Lover*’ (and it’s over”) is a clever way to say if a couple takes making love out of their relationship it could kill it. Phifer could become the newest piper attracting his own following of fans who will likely respond well to “Take The ‘L’ Out of Lover..”
